### Senior housing vacancy rate up for 2009

**C**anada Mortgage and Housing Corporation (CMHC) 2009 Ontario Seniors Housing Report, shows the vacancy rate is 13.2% up from 12.5 % last year.

The national vacancy rate for standard spaces was 9.2% while in Ontario it was 13.3 %.

Total retirement home supply continued to grow, with one and two-bedroom units gaining market share. The average monthly rent for a standard private/studio space was \$2,520.

"Since the previous survey, the retirement home supply in Ontario has been growing faster than the population aged 75 and over," said Ken Sumnall, CMHC's Ontario Manager,

Housing Market Surveys.

"Looking ahead, the vacancy rate will increase moderately. The growth rate of the senior population in Ontario will remain relatively low until 2017 due to the low birth rates in the 1930s. At the same time, the substantial number of recently opened retirement homes and projects under construction will boost the supply of available spaces."

CMHC has been Canada's national housing agency for over 60 years. CMHC is committed to helping Canadians access a wide choice of quality, affordable homes, and making vibrant and sustainable communities and cities a reality across the country.

S. SECRET WEAPON.

There are two kinds of drivers. The ones who know what it takes to get the best performance out of their vehicles. And the ones who just let the slow lane to make room for them as they go by. The revolutionary S.drive high performance tire. It puts you firmly in control, with a breakthrough micro-flexible compound, developed using Yokohama's proprietary Nanocrystallinity. A forest-like tread design engineered to take any bite or turn like thrown at you. And the branding of a true competitor, born of a legacy of Yokohama wins on the racing circuit. You've either got a seat - or they're probably passing you.
